# AN ANNOUNCEMENT

7/9/67

We are proud to announce that we have arranged to propagate and catalog all the many fine varieties of plants that have resulted from the life work of Mr. J. A. Evans. For several years we have been offering a number of his fine peaches, described elsewhere in this catalog, and we will soon be able to offer a complete list of his remarkable collection of unusual fruits and nuts.

Mr. Evans was for a number of years Horticulturist for the Extension Division of the Texas A. & M. College, and is so well known that comment about the high quality of his plants is not needed. Descriptions will be given in our future catalogs as fast as we can propagate a sufficient number of plants. A few of these good and unusual items for our future catalogs will be:-

IDEAL, NUGGET, EVANS and other pecans.  
A JUMBO ENGLISH WALNUT.

Two new grapes of outstanding merit.

The "Spong" Apricot.

The photograph above shows Mr. Evans inspecting one of his Stephenson peach trees loaded with a heavy crop of magnificent fruits.

## SPECIAL INFORMATION AND INSTRUCTIONS

Under present conditions, most nurseries find it impossible to have a full stock of all items in the catalog. The information on this page is to help you make out your order so that you may receive as many items as possible. All prices in this catalog are subject to change without notice.

### PAPERSHELL PECANS

We are practically out of sizes Nos. 176 and 206, but have a nice stock of practically all other sizes.

Write for special prices if you are interested in planting a commercial pecan orchard.

We do not have any trees left on the nematode-resistant roots, and can furnish Evans Varieties ONLY on regular peach rootstocks.

### EVANS PEACH VARIETIES

We are out of Honey Special. In addition to those listed, we have PERKINS, a seedling of Charlotte that ripens a few days earlier; a delicious, highly attractive yellow-fleshed freestone. Also EL CLING, that ripens after Elberta; a beautiful, yellow flesh cling just the right size and I believe the finest pickling peach I ever saw.

PRICES on all Evans Peach Varieties:-

2 to 4 ft., \$1.50 each, Prepaid  
4 to 5 ft., \$2.50 each, Prepaid  
JUMBOS, \$3.45 to \$4.95 each, but too large to ship.

### STANDARD PEACH VARIETIES

Extra-nice, well rooted, branched 24 to 30 inch trees for commercial or home orchards.

## FIGS for Health

Early Bearing

TEXAS EVERBEARING. We think this is one of the finest of all figs. Bears heavily on little trees just a few inches-high in nursery rows (see illustration). Figs June until frost. Seems to do better farther north than most figs. Straw colored fruit that rarely cracks. Good size and excellent flavor. 35¢, 50¢, 75¢.
